

Dr. Ross W. Barnett has been practicing radiology since 2005, and is board certified by the American Board of Radiology. He graduated summa cum laude from the Medical College of Georgia School of Medicine, where he scored in the top 1% on all three medical board exams, served as VP of Academics and was elected his junior year to Alpha Omega Alpha Honor Society.

His post-medical school background includes residency training in neurosurgery and pediatric intensive care, which awarded him extensive diagnostic and clinical experience in neurological conditions and imaging. Dr. Barnett also has comprehensive training in musculoskeletal orthopedic imaging, having completed a visiting fellowship under world-renowned Dr. Stephen Pomeranz. Radiology residency training at UAB afforded him world-class diagnostic radiology, body imaging and fluoroscopy training.

Dr. Barnett's newly expanded and relocated imaging facility, BHM Physicians' Imaging | Open MRI of BHM, offers full diagnostic services including the newest 3T MRI capable of scanning claustrophobic or large patients up to 600 lbs. Also offered are Open MRI, CT, Digital X-Ray, Fluoroscopy, Ultrasound, and coming late 2017 Nuclear Medicine and Mammography. Dr. Barnett's latest facility, the flagship of his 12 locations... right here in Birmingham, is located at the intersection of I-459 and Hwy. 280 in the Colonnade.
